

# THE PLANT BETWEEN SUN AND EARTH

## ENCOUNTERS WITH INFINITY

What is the magical secret which is spoken silently yet eloquently in the heart of every flower? Hidden in the undergrowth or flaunted high upon the hedgerow, a message is for ever being sounded if we could but hear it – a thousand modulations of one mighty theme.

In the plant world many forces act on the shaping of their different organs and on the regulation of their growing and developing processes.

Where do these forces come from and how do they relate to the substances that constitute the plant?

This course, through a qualitative scientific approach, is designed to help in the understanding of the subtle relationships between the formative forces and the substances that constitute the plant which in their final configuration reveal the magnificent interplay of different realms of existence.

We shall use elements of Projective Geometry to bring about a change in one's thinking which is the key to a positive but real understanding of the development processes in the plant.

To see a world in a grain of sand  
And a heaven in a wild flower,  
Hold infinity in the palm of your hand  
And eternity in an hour

*William Blake*

This online course will be rendered in English with simultaneous translation to Spanish and Portuguese (if needed)

**COSTS:** €100/ participant. Free to biodynamic advisors in the quality system + BFDI'S staff

*In this course we will concentrate, to begin with, on the fundamental polarity of Earth and Sun, for this is archetypal. When the idea has been fully experienced and scientifically understood, the way will be open to perceive in detail how the true nature of the plant reveals also the true nature of the galaxy – of the great organism within which all life on Earth takes place. The plant must reveal herself in full glory – an ethereal form clothed in earthly substance, living, unfolding, metamorphosing between “Earth and Sun”, amid the sun-like, through the differentiated cosmic forces of the planets and the stars.*

*George Adams*

## PROGRAMME

Module	Title	Date	Time
1	Introduction	February, 20	14:00 to 17:00 CET
2	Encounters with infinity	February, 23	14:00 to 17:00 CET
3	The Law of Polarity	February, 27	14:00 to 17:00 CET
4	Space and Counterspace (Physical and Ethereal spaces)	March, 5	14:00 to 17:00 CET
5	Formative Forces and Substances	March, 12	14:00 to 17:00 CET
6	The Language of Plants	March, 19	14:00 to 17:00 CET
7	The Spiritual Matrix of Life	March, 26	14:00 to 17:00 CET

*The course is based on the work of George Adams and Olive Whicher as presented in their book “The Plant between Sun and Earth”*
